ONIX Environmental Commitment

We are responsible for the legacy of future generations, which is why we maintain a firm commitment to offer a product that is environmentally friendly, healthy and energy efficient in order to reduce the excess of CO2 emissions on the planet.

Our glass mosaic tiles are made from 98% recycled glass, which, in addition to contributing to the circular economy, is an added value to the quality of our products. And, because we are committed to optimizing the use of each and every resource, we use recyclable packaging.

Meanwhile, we have incorporated a number of measures aimed at energy sustainability. For example, we do not use fossil fuels in our production process, and the energy used to drive our operations comes from renewable sources, specifically solar PV energy generated at our own facilities.

ONIX Compromiso Medioambiental

Nos sentimos responsables del legado de las futuras generaciones, por ello mantenemos un firme compromiso en ofrecer un producto respetuoso con el medio ambiente.

Nuestras teselas de mosaico vítreo están fabricadas a partir de un 98% de vidrio reciclado, lo que además de promover la economía circular, proporciona un valor añadido a la calidad de nuestro producto. Este compromiso con la optimización de los recursos y su aprovechamiento también lo aplicamos a nuestro embalaje, siendo éste reciclable.

Paralelamente llevamos a cabo medidas orientadas hacia la sostenibilidad energética, entre ellas no emplear combustibles fósiles en el proceso productivo y funcionar con energía basada en fuentes renovables, en concreto con la energía solar fotovoltaica que generamos en nuestras propias instalaciones.

ONIX Engagement Environnemental

Nous sommes responsables de l'héritage des générations futures, c'est pourquoi nous maintenons un engagement ferme pour offrir un produit respectueux de l'environnement, sain et économe en énergie afin de réduire l'excès d'émissions de CO2 sur la planète.

Les tesselles de nos mosaïques de verre sont composées à 98 % de verre recyclé, ce qui en plus de favoriser l'économie circulaire, apporte une valeur ajoutée et un plus de qualité à nos produits. Le fait que nos emballages soient recyclables confirme également notre engagement envers l'optimisation et l'utilisation des ressources.

Dans le même temps, nous avons mis en œuvre, un ensemble de mesures ayant pour objectif la durabilité énergétique, notamment en renonçant à l'utilisation de combustibles fossiles dans nos processus de production, au profit d'énergies issues de sources renouvelables, telle que l'énergie solaire photovoltaïque, que nous produisons sur notre propre site.

Versatility and Efficiency

We design and conceive glass mosaic as a fundamental element for indoor and outdoor decoration, not only because of its aesthetic possibilities, which allow for great customization, decoration and design, but also because of its functional properties.

Its high resistance to humid environments, non-porosity and resistance to thermal shocks, make our product the perfect choice for all types of rooms. In addition to its hygienic and antibacterial properties and its ease of cleaning, which explains the increasing use of this material in all types of projects.

Versatilidad y Eficiencia

Diseñamos y concebimos el mosaico vítreo como un elemento fundamental en la decoración de interiores y exteriores, no sólo por sus posibilidades estéticas, que nos aportan una gran capacidad de personalización, decoración y diseño; sino también por sus propiedades funcionales.

Su alta resistencia a ambientes húmedos, nula porosidad y resistencia a choques térmicos, convierten a nuestro producto en la opción perfecta para todo tipo de estancias. Además de destacar sus propiedades higiénicas y antibacterianas y su facilidad de limpieza, que justifican el crecimiento en la elección de este material en todo tipo de proyectos.

Versatilité et Efficacité

Sa grande résistance aux environnements humides, sa non-porosité et sa résistance aux chocs thermiques, font de notre produit le choix idéal pour tous les types de pièces. Sans compter ses propriétés hygiéniques et antibactériennes et sa facilité de nettoyage, ce qui explique l'utilisation croissante de ce matériau dans tous types de projets.

Luminescent

Luminescent

ONIX's luminescent glass mosaic glows in the dark for hours after being charged with light, both natural or artificial (fluorescent, ultra-violet or halogen). This cycle may be repeated indefinitely.

The glow endurance depends on how long it has been exposed to light and also with the type of light it has been energized with. The luminescent will then gradually fade away after hours in the darkness.

This mosaic is weatherproof so it is suitable for any use: swimming pools, indoors & outdoors, walls, residential floors... It can be used as a plain color or mixed with the rest of ONIX.

Luminiscente

El mosaico vítreo luminiscente brilla en la oscuridad durante horas después de haber estado expuesto a la luz, tanto natural como artificial fluorescente, ultravioleta o halógena. Este proceso puede repetirse indefinidamente.

El tiempo de emisión dependerá del tipo de luz con el que se haya efectuado la carga, así como del tiempo que haya estado cargando el mosaico luminiscente. La intensidad de la emisión es gradual, disminuyendo poco a poco con el paso de las horas.

Este mosaico es resistente a condiciones meteorológicas y, por tanto, apto para cualquier uso: piscinas, interiores y exteriores, paredes, suelos residenciales... Se puede utilizar como base o se puede mezclar con otro producto de ONIX.

Luminescence

La mosaïque de verre phosphorescente brille dans l'obscurité pendant des heures après avoir été exposée à la lumière tant naturelle qu'artificielle (fluorescents, ultraviolets, halogènes). Cette opération peut être répétée de manière indéfinie.

Le temps d'émission dépendra du type de lumière utilisée mais aussi du temps durant lequel la mosaïque phosphorescente aura été exposée. Le temps d'émission est gradué et diminuera peu à peu au fil des heures.

Cette mosaïque est résistante aux conditions météorologiques. Elle peut donc être utilisée dans n'importe quelle application: piscines, intérieurs et extérieurs, murs, sols résidentiels... Elle peut être posée seule ou en mélange avec d'autres références d'ONIX.
