TIMELINE

1999

ONIX is founded: design, innovation & sustainability as core values

2002

First exports to France & Portugal. 2nd electric line launches

2012

US warehouse opens – solidifying the brand’s global growth strategy

2016

Digital decoration applied to glass mosaic. 4th electric kiln installed

2022

2nd production plant & logistics center open. 2 photovoltaic plants installed

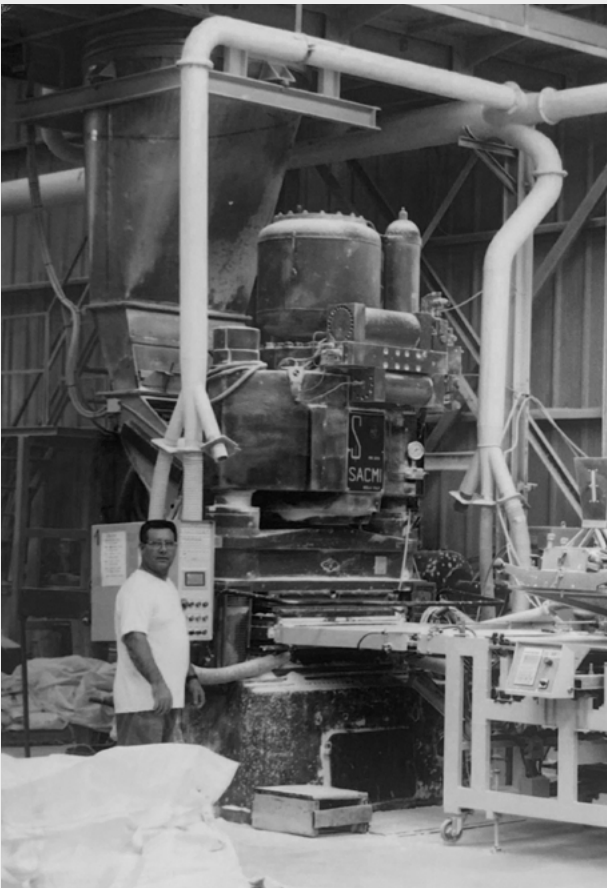

2024

ISO 50001 energy efficiency certification

2000

1st electric kiln & first glass mosaic collections

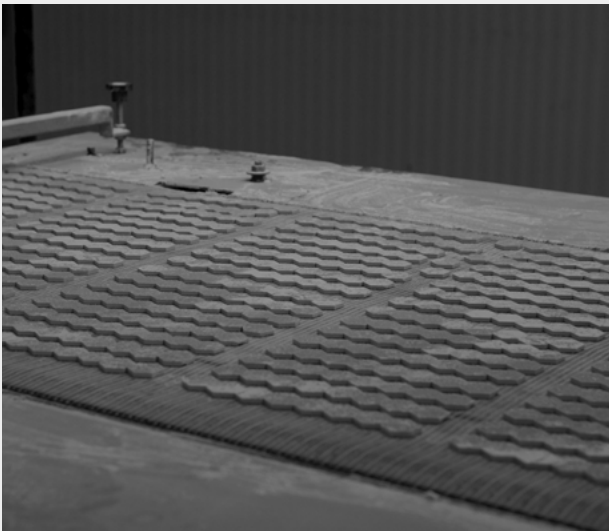

2004-'07

Expanded facilities & offices. New warehouse with classification system improves efficiency

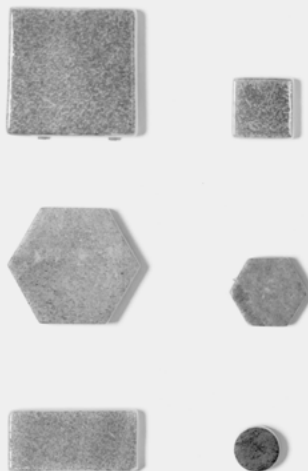

2014

Launch of hexagonal format expands creative possibilities

2020

Penny Round format completes the 6-shape portfolio

2023

New showroom & 1st ONIX store in Jakarta's Indonesia Design District (IDD).

2025

Construction of the 6th electric kiln begins. Ushering in a bold new chapter in the ONIX journey

ONIX is the global leader in glass mosaic tile production, with an annual output of 3 500 000 m². Renowned for its innovation and advanced technology, ONIX is also a sustainability pioneer: using 100% recycled glass, avoiding fossil fuels, and operating with self-generated solar energy
